

AEM Training - Day 4 Assignment (21-03-2025)

Create News Room Page Component

✎ Steps:

1. **Open CRXDE:**

Navigate to <http://localhost:4502/crx/de/>.

2. Navigate to the following path:

```
/apps/myTraining/components
```

3. Create a new folder named **newsroom**.

4. Inside the **newsroom** folder, create the following files:

- **newsroom.html**
- **_cq_dialog.xml** (for dialog fields).

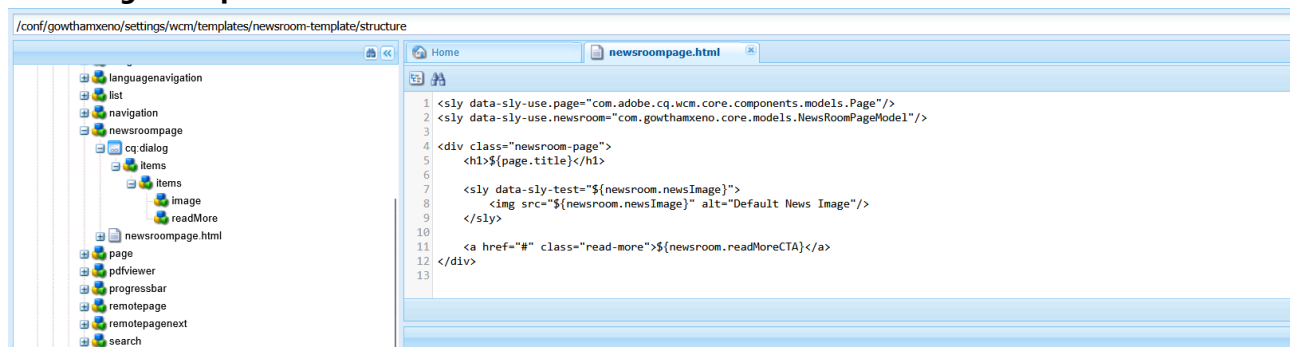

5. Add the following content to the **newsroom.html** file:

```
<div data-sly-use.basePage="com.myTraining.core.models.BasePage">
  <h1>${basePage.pageTitle}</h1>
</div>
```

6. Save and build the project.

1. News Page Component

Create Custom Page Property - NEWS Configurations

✎ Steps:

1. **Open CRXDE:**

Navigate to <http://localhost:4502/crx/de/>.

2. Navigate to the following path:

```
/apps/myTraining/components/newsroom
```

3. Add a **Page Properties Dialog**:
- Create a file named `_cq_dialog.xml`.
 - Add the following fields:
 - `og:title`
 - `og:description`
 - `og:image path`

4. Save and deploy the changes.

Create News Room Template Type

 Steps:

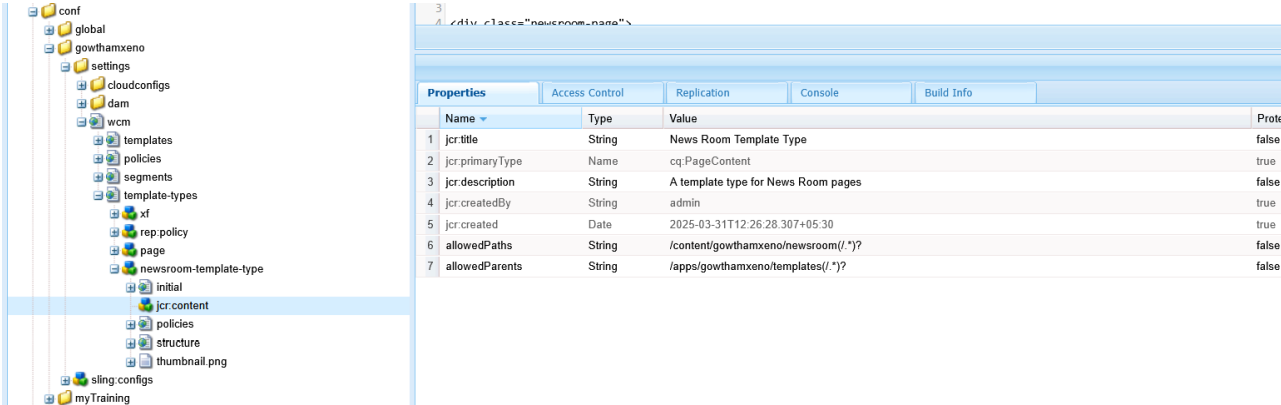

1. Navigate to the following path:

```
/conf/myTraining/settings/wcm/template-types
```

2. Create a new template type with the following details:
- **Name:** News Room Template Type
 - **Allowed Paths:** `/content/myTraining/*`
3. Save and activate the template type.

Apply Styling to News/HelloWorld Component

✂ Steps:

1. Navigate to the following path:

```
/apps/myTraining/ui.frontend
```

2. Open the CSS file located at:

```
/apps/myTraining/ui.frontend/src/styles/news.css
```

3. Add the following styles:

```
.newsroom-title {  
  color: green;  
  font-size: 24px;  
}  
  
.newsroom-description {
```

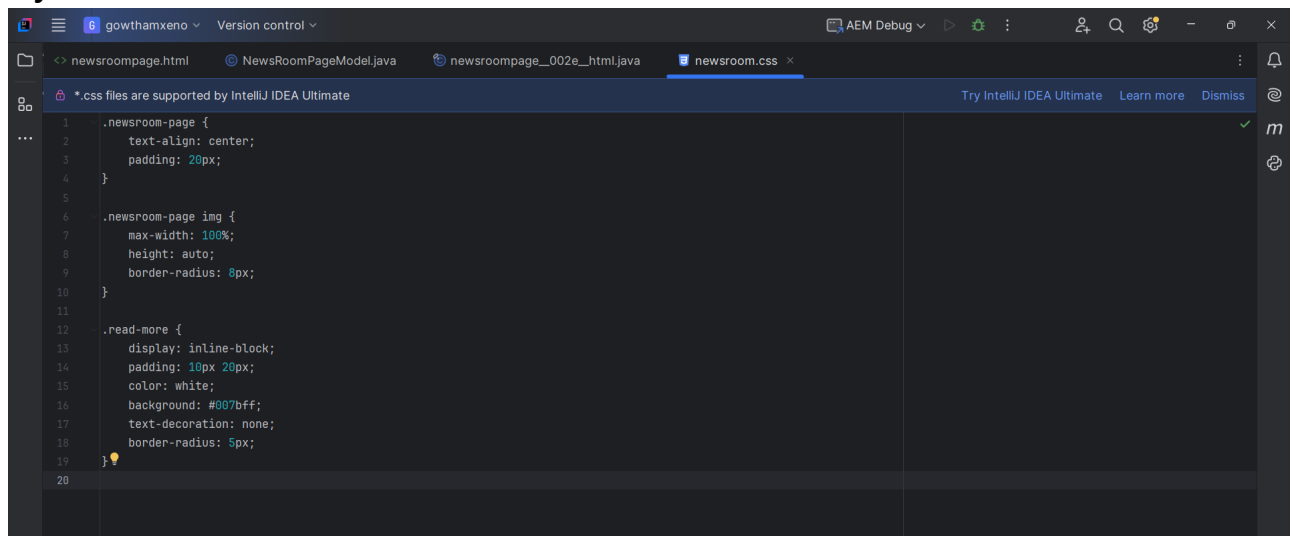

```
        color: yellow;
    }

    .newsroom-date {
        color: black;
    }
}
```

4. Save and deploy the changes.

1. Style :

Create Custom Style for Components

✂ Steps:

1. Open CRXDE:

Navigate to <http://localhost:4502/crx/de/>.

2. Navigate to the following path:

```
/apps/myTraining/components/newsroom
```

3. Create a **Style System**:

- **Path:** `/apps/myTraining/components/newsroom/_cq_design_dialog.xml`
- Add the following custom style configuration:

```
<cq:dialog>
    <items jcr:primaryType="cq:WidgetCollection">
        <styleGroup jcr:primaryType="nt:unstructured"

sling:resourceType="cq/gui/components/authoring/dialog/style">
        <styles jcr:primaryType="nt:unstructured">
```

```
        <style1 jcr:primaryType="nt:unstructured"
              text="Newsroom Custom Style"
              class="newsroom-custom-style"/>
      </styles>
    </styleGroup>
  </items>
</cq:dialog>
```

4. Save and deploy the changes.
